

# HOW TO TAKE PHOTOS OF THE LEADING EDGE en 3mn!

1. Find the middle of the leading edge by folding it in half 2. Draw a circle around the valves with a pen 3 et 4. Write down references each meter on the bladder from one end to the other. .

5. Put your kite jump next to your leading edgeto give a scale to the photo 6. Take every photo the same way to be sure to have all the references from one end to the other.

Here the finished sequence of photos. Note: PHOTO 1 should contain reference 1, PHOTO 2 reference 1 and 2, PHOTO 3 reference 2 et 3, PHOTO 4 reference 3 et 4 and so on... Your photos are ready to be sent.

When we receive them, we contact you, and put the bladder online to allow you to order it.
