

3 MONTHS OF WARRANTY FOR THE BLADDERS

Our bladders are made with care from the original patterns, with special specifications from Wanikou.

Reinforcement on the ends to avoid the creation of the hernia.

Use of polyurethane 80 microns high quality.

Original valves thermosoudées on high frequency to avoid peeling.

Slightly larger size for a better strength.

Guarantied:

Leaks on a bad welding area.

Peel of a valve or leak on a valve

Out of guaranty:

Assembly without talc

Hernia on a strut between the valve and the leading edge

Hernia on a strut or a leading edge on the end, resulting from not having closed back the velcro.

All the hernias resulting from a bad assembly or damage on the outside envelope of the kite.

All holes on the bladder resulting from outside aggression.

To benefit from the guaranty, send a picture of the bladder and the wing with the reference or copy of the invoice at sav@wanikou.com.

If needed we can ask you to send us the bladder.
